HR Consulting: Policy Development, Compensation & Benefits Design, HR Frameworks, Onboarding/Offboarding

People & Tech Ops: Resource Planning for Engineering Teams, Stand-up Facilitation, Team Alignment

Culture & Engagement: Employee Engagement, Emotional Intelligence, Change Management

EXPERIENCE

HR & Technical Recruitment Consultant

Sep 2023 – Present

Freelance

- Delivered HR and technical recruitment support to multiple IT companies, sourcing and screening candidates for niche tech roles
- Sustained hiring momentum for client organizations between full-time engagements, drawing on deep HRIS and talent acquisition experience

HR & Operations Manager

Feb 2024 – July 2026

PortPro

- Increased hiring volume by 64.7%, growing from an average of 9 to 14 hires annually, supporting a 71.9% headcount increase from 32 to 55 employees
- Reduced employee turnover by approximately 16.6%, from 25.0% to 20.9%, while scaling the organization
- Built an internal recruitment strategy eliminating reliance on third-party agencies, sourcing talent through LinkedIn, direct headhunting, and employee referral programs
- Streamlined CV/resume screening by integrating AI tools (Claude, ChatGPT) to shortlist candidates, replacing fully manual review and improving speed and consistency
- Automated daily engineering stand-up sheets with Claude, giving the tech team a faster, more consistent update
- Designed and implemented an employee referral policy to strengthen internal hiring channels and improve candidate quality

- Developed and rolled out a structured annual leave policy to standardize entitlements and ensure regulatory compliance
- Established a formal organizational hierarchy to improve reporting clarity, accountability, and workflow efficiency
- Designed operational frameworks, including continuous feedback loops and performance management programs, to foster an engaging, learning-based culture

Sr. People Ops Officer

Jul 2021 – Sep 2023

Outside

- Led design and development of an internal HRIS platform from scratch as Product Owner, taking it from concept to company-wide rollout
- Closed end-to-end recruitment cycles, including forecasting, sourcing, screening, and onboarding, to keep the organization staffed for growth
- Streamlined onboarding, offboarding, and internship programs, improving consistency and the new-hire experience
- Rolled out a company-wide continuous feedback and performance management system, delivered regular reports that gave leadership visibility into engagement and culture health
- Represented the organization at professional forums and led company events that strengthened team culture, including Sheqal and Wordcamp

HR and Finance Officer

Oct 2018 – Feb 2021

BitsBeat IT Solution Pvt. Ltd.

- Maintained accurate, compliant employee records, contracts, timecards, and HRIS data across the organization, ensuring compliance with labor and company policy standards
- Ran orientations and exit processes end-to-end and produced job descriptions and offer letters that supported hiring
- Uncovered organizational gaps through employee surveys and research, then built and executed action plans to close them
- Administered employee benefits, claims, and payroll adjustments accurately and on schedule

Operation Assistant

Nov 2013 – Feb 2016

Rebala Remote Services Pvt. Ltd.

- Served as the key link between management and staff, resolving employee questions and contract issues
- Identified personnel problems through data and reporting analysis and recommended improvements

INITIATIVES

- Launched a personal portfolio website (pragya-shrestha.com.np) using Claude, translating career experience into a polished professional brand presence
- Developed an HR helpdesk bot powered by Claude to answer employee questions on leave, policies, and HR queries, reducing repetitive back-and-forth for the HR team
